+

Project management

 **NTFs CARDANO** **blockchain**

education **smart-contract** **use-cases**

 In progress  Carlos Palacios

 Mar 01 — Mar 31

Define project objectives and scope

 **Immutability** **decentralized** **security**

traceability **transparency**  Done

 Carlos Palacios  Mar 01 — Mar 08

Project monitoring and control

 **Project Control** **web3**

 In progress  Félix Enrique Dávila

 Mar 01 — Mar 31

Define the roles

 **Backend Developer.**

Frontend Developpe **Graphic designer**

 Done  Carlos Palacios

 Mar 01 — Mar 08

+

Approval Record

 **deliverables**  Done

 Jean Carlos Aguilar  Mar 01 — Mar 31

Design system architecture

 **Application Programming L...**

business modeling **graphical interfaces**

query language  Done  orestes

 Mar 01 — Apr 19

Create a project schedule

 Done  Carlos Palacios

 Mar 08 — Mar 15

+

Develop API´s

 To do

 orestes

 Apr 15 — May 10

Perform API´s unit testing

 To do

 Jean Carlos Aguilar

 May 01 — May 31

Develop UI and admin

 To do

 NoName

 Apr 01 — May 31

Set up API´s development environment

 In progress

 orestes

 Apr 01 — Apr 12

Configure web3 development environment

 In progress

 NoName

 Apr 01 — Apr 08

Graphic design, analysis and content marketing

 In progress

 Jacqueline Colina

 Apr 01 — May 31

Project management

 In progress

 Carlos Palacios

 Apr 01 — May 31

Project monitoring and control

 In progress

 Félix Enrique Dávila

 Apr 01 — May 31

Milestone 3: Design and... | 6 ...

Design smart contracts and NFTs

 To do  orestes  Apr 15

Define the structure of smart

 To do  orestes  May 01 — May 31

Code smart contracts and NFTs

 To do  orestes  Jun 01 — Jul 08

unit test contracts and NFTs

 To do  Jean Carlos Aguilar

 Jun 24 — Jul 31

Project management

 To do  Carlos Palacios

 May 01 — Jul 31

Project monitoring and control

 To do  Félix Enrique Dávila

 May 01 — Jul 31

Integrate web3 portal with APIs

 To do

 orestes

 Aug 01 — Aug 23

+

+

Integrate web3 portal with smart contracts and NFTs

 To do

 orestes

 Aug 12 — Sep 09

Integrate notification system with web3 portal and APIs

User Testing

Project management

Project monitoring and control

Milestone 5: Testing, Test... | 6 ...

Deploy to the testnet

[] [] []

+

+

Perform integration tests on the testnet network

[] []
[]

Open the system in testnet to a group of selected users

[] []
[]

Collect and analyze user feedback

[] []
[]

Project management

[] []
[]

Project monitoring and control

[] []
[]

Deploy contracts to the mainnet

Perform integrity tests on the core network

Final project completion report

Prototype Delivery

Project management

Project monitoring and control
